

Campus Permanently Installed Audio-Visual Equipment

THE ROOMS ON THE FOLLOWING PAGES ARE CLASSIFIED UNDER THEIR INSTALLED TECHNOLOGY LEVEL. THE CHART BELOW DESCRIBES EACH LEVEL AND DEFINES THE TECHNOLOGY LISTED. PLEASE SEE THE "TECH LEVEL" COLUMN IN EACH BUILDING AND REFER TO THIS CHART FOR EXPLANATION.

*Technology Level Descriptions and Definitions

Technology	Level 0	Level 1	Level 2	Level 3	Level 4	Level 5
Audio Amplifier	Room has no installed audio-visual equipment except for what is listed.	-	-	Audio Amp	Audio Amp	House sound system requires operation by Wheaton College employee.
Computer		-	Laptop connection	PC Installed	PC Installed	
Control System		-	-	Switch panel to select source	Integrated remote control**	
Document Camera		-	-	Doc Cam as needed	Doc Cam as needed	
DVD Player		-	-	DVD player as needed	DVD player as needed	
Overhead Projector		OHP	OHP	OHP	OHP	
VHS Player (Video High Speed)		VHS Player	VHS Player	VHS Player	VHS Player	
Video Display		Monitor	Monitor	Data/video proj with screen	Data/video proj with screen	

***The Integrated remote control will power-on the projector and system. It also features controls such as play, fast-forward/reverse, etc, for the installed sources which are projected and/or played via audio.*

Data Projector - Also referred to as a Video Projection Unit (VPU). Projects a video on a pull-down screen instead of using a TV/VCR. It is typically mounted on the ceiling of a room and accessed through a central console at the front or side of the room.

Document Camera/Visual Presenter - Similar to an overhead projector, but projects paper documents via the room's data projector.

House Sound System - Room has a microphone jack.

Managed PC - Personal computer managed by the Media Resources Department. Password is required for PC access (arranged through Media Resources). Managed PCs run Windows 2000 & Office 2000 software and Internet Explorer.

TV - All TVs are 25-27" in size unless otherwise noted.

NOTE: According to need, some rooms also feature a CD player, cassette player, phonograph turntable, laserdisk player, telestrator, cable TV, custom lighting control, and/or video camera with VCR. Those with "Presentation Stations" have the ability to display data from a personal laptop. Access to the internet via the college network is through a username and passcode purchased through Conference Services.

Armerding Hall

Included Features					
	Display	Screen Size	*Tech Level	House Sound System	Comments
18	Projector	2 @ 7'	2		Data Port may be programmed for phone jack upon request.
20	TV	6'	4		Data Port may be programmed for phone jack upon request.
